The Norfolk Mail STAGE.

THIS Stage starts from the GEORGE Tavern,

at the corner of Second and Arch Streets, in

Philadelphia, every Tuesday, Thursday, and Satur-

day, at 3 o'clock in the morning; arrives at Dover

the first day, at Snowhill the second day, at

Northampton Court House the third day, and on

the morning of the fourth day the passengers find

a safe and comfortable packet to convey them to

Norfolk.

A packet leaves Norfolk for Northampton ferry,

every Tuesday, Thursday and Saturday, and the

Stage starts from this ferry for Philadelphia, every

Monday, Wednesday and Friday; puts up at Snow

Hill the first night, at Dover the 2d night, and ar-

rives in Philadelphia in the evening of the third

day.

The distance on this route, between Philadelphia

and Norfolk, is 80 miles; less than on any stage route

between those places.

Too much cannot be said in favor of the road,

which is most excellent indeed. The proprietors

willingly engage to return the whole fare to any

passenger, who, after having performed this route,

will say that he ever travelled in a stage for the same

distance, so good a road in America.

That by the decree of condemnation of the brig Lady Washington and cargo, by a tribunal at St. Domingo, received this day, it appears that his excellency the governor of this island, "confirmed by a certificate in form" dated the 25th March last, the proceedings had here therein—

That in some instances cargoes have been taken out and sold there, though not yet condemned even by the agent—

That under those circumstances and considerations your memorialists look forward for ultimate redress, and therefore pray your honorable body, that the money of every vessel or cargo sold, or that may be sold, be placed in safety to wait the issue of their respective appeals, your memorialists being severally determined to appeal as hereby they do appeal to national negotiation, and to the superior courts of justice in Holland and Spain, against the proceedings and determinations had, or that may be had here to such effect against your memorialists, solemnly protest, that to the money may not be divided as prize, but as far as it may go, await the appropriations of justice—

Communication.

All who have any taste for improvement in the Machinery used in Manufactures, must be highly gratified by viewing the gin-diffusory belonging to col. Daniel Tilling-hall, late of this town, erected at Uxbridge the present season, under his own direction.

—The work is all done under one roof, and may literally be said to be done by water.

—The water used in the cisterns and worm tubs is conveyed through a log, from a small but never-failing pond, raised for the purpose of grinding the grain, and moving the other machines.—The liquor is pumped from the cisterns into the stills by water—

the liquor in the stills and cisterns is stirred by water—and the grains, which run from the stills into a cistern, are pumped by water into the trough in front of the cattle.

—The Machinery is so simple as to be easily understood, and is hardly liable to get out of order. If we compare this mode of doing the business with that which is sometimes used, the contrast appears very striking.

The grain is generally ground by horses, or carried Miles to Mill—the immense quantities of water used in the cisterns and worm-tubs, are frequently pumped by horses from a deep well—the liquor in the stills and cisterns is stirred by hand—the liquor is pumped from the cisterns into the stills by hand—and the grains for the cattle are pumped by hand. In a country like this, where labour is scarce and dear, every improvement in Machinery for saving labour in adding so much wealth to the nation.

NEW-YORK, October 02.

We are informed that the troops under the command of Lieutenant Murchalk, on Ellice's Island, are under marching orders for Port Mary, on the Mississippi—it is expected they will fall for New-Brunswick on Monday next, whence they will proceed on their march.

On the 26th ult. His Majesty's ship Experiment, capt. Saville, sailed from Halifax for England. In this ship went passengers, Lt. Col. Lazard, Lt. Col. Wetherall, Mr. James Kidson, and others—Also, the remnant of the 5th Regiment of the 1st Brigade, commanded by capt. Geraghty, lately from the West-Indies.

The following is re-printed from a paper of 1793, and, as four years has since elapsed, our readers will see how the prophecy has thus far been fulfilled—and from thence what faith is due to the future:

INTERESTING PROPHECY.

"The following was handed ns, in print, by a gentleman lately from London. It is presented to our readers as we received it, as a support of their faith in the Millennium, which, we hope can be supported by scripture-reason, and the opinions of pious men, that it will come and the time soon.—

[1 Theil. V. 20, 27.]

"DEAR SIR,

"EVER fond, as I know you are, of what is curious, I have sent you a copy of a remarkable prophecy, lately found in Paris, and transmitted from a gentleman there, to his friend in London; who writes, that it was engraved on a flag-stone, two yards square, in Hebrew characters, and very elegantly inscribed with gold. It is supposed to have lain near 600 years, under an old wall, taken down, by the late king of France, to be rebuilt. On removing the rubbish from the foundation, this stone was discovered.

"Permit me to assure you, that I heard it from a man of very strict veracity and honor, who is expert at Hebrew, and on whom I can rely for the truth of the circumstance. As it predicts a most glorious and universal revolution in 1800, I heartily congratulate you on the welcome news. I do expect

great changes will take place here. The Millennium will soon come, I have been long satisfied in my own mind; may you and I prepare for it. O may we live to see the really illustrious Defendant alluded to; who, if this be true, must be now alive, past infancy, probably in Europe; perhaps in England; is the sincere wish of, sir, your affectionate friend and servant,

B. HAWES.

"IN the year 1790, there will be a rebellion against the French King; and when the present Pope dies, there will be no other elected.

"In the year 1791, there will be a war amongst many of the European powers against France.

"1792, more of the Christian powers engaged in the war.

"1793, the war increases throughout Europe.

"1794, there will be a few or no forms of religion observed in France.

"1795, there will be a destructive diffusion among the powers of Europe.

"1796, there will be a great slaughter, and much blood-shed, by land and sea.

"1797, there will appear a Gog and Magog, that will make war against all nations in the world.

"1798, there will be a great destruction that will thin the inhabitants of the earth.

"1799, there will come a Defendant of David, who will perform such Acts of Grace from the power derived from Almighty God, as to destroy Gog and Magog—and will cause, in

"1800, the remnant of all nations to be of one religion, and no more wars among men, who will be forever after in bonds of friendship, equality, and unfeigned love towards God and one another.

"By Gog and Magog, I apprehend we may understand the open and secret enemies of evangelical liberty and equality, or of genuine christianity.

CHARLESTON, October 4.

We are informed that citizen Victor Dupont, consul of the republic of France in this city, has received his appointment of consul-general of the Republic, to reside in Philadelphia: he is to be succeeded in this state by citizen Scherer, brother to general Scherer. A new appointment is also made: Citizen Bose is to reside at Wilmington, N. C. as vice-consul of the republic for that state. Citizen Mozart, consul of the republic at Boston, is to be succeeded by citizen Gerault.

Messrs. Freneau & Paine,

As I think all works tending to the public benefit should be encouraged, I take the liberty of noticing the following:

On my way from Santee, the other day, I called in at the plantation of William Marshall, esq. to see his Tile Works, of which I had heard. I was conducted to the works near the landing, and found them in complete operation.

They appear to be conducted with great order and activity, and the people employed in it appear to be masters of the business.

The clay is of a superior quality, and the tiles are very fine, and of a large size.

Some excellent pottery has been made here, and they are preparing to go extensively into this branch. There are a great number made, and the four moulders turn out of hand a great many in the course of the day.

It is certainly a manufactory that will not only be very profitable to the proprietor, but beneficial to this country. I am told, from a specimen in town, they are equal to European tiles, and why import these things, when we can have them of our own?

In lat. 25, 40—long. 67, spoke the sloop *Nancy*, Minor, out 32 days from New-York to Jacmel, in want of water, with which supplied him.

CHARLESTON, October 6.

Yesterday arrived the brig *Helena*, Kock, Malaga, 80 days; brig *Louisa*, Seigerberg, Hamburg, 104 days; ship *Ann* and *Susan*, Well, Honduras, in distress, out 29 days, bound to Philadelphia; schooner *Mark Anthony*, Raymond, Wilmington, 12 days; schooner *Ether*, Pease, Nassau, 24 days; brig *Sue*, Haar, Bremen, 128 days; sloop *Gute Erwarts*, Von Printz, Hamburg, 206 days; ship *Mercury*, Roberts, Nassau; sloop *General Greene*, St. Nicholas Mole, 11 days; brig *Hannah*, Kenny, St. Thomas, 37 days, in distress, bound to Philadelphia.

The *Mercury*, (which was taken some time ago on her passage from the Havannah to this port, by a privateer commanded by capt. Coppinger, and released, and afterwards again taken by the same privateer, bound with the same cargo, from this port for Hamburg) arrived at the Port yesterday, from New-Providence, her cargo having been condemned there, on the pretext of one of the shippers residing at the Havannah.

The pilot boat *Lucy*, Prince, which was carried into Nassau by a Providence privateer, after two days detention was permitted to proceed on her voyage to the Havannah.

The sloop *Phenix*, which failed from this port for Carthage about six days ago, has returned, having sprung a leak.

The ship *Ann* and *Susan*, Richard West, master, which arrived yesterday from the Bay of Honduras, put into this port in distress. On the 26th of Sept. in lat. 27, just after entering the Gulf, capt. West met with a severe gale of wind, which lasted 8 hours; his mizen mast, head of his main-mast, and main-top-mast, were carried overboard, and his ship received considerable damage in her hull. She belongs to Philadelphia, and was bound there. After the gale capt. West saw a ship which had lost all her masts; and a brig and a schooner, which had each lost a mast; from a disabled state of his ship, he could not speak to either of them.

Capt. West brought in with him capt. David Edwards, of the ship *Salter* of London, and his two mates and carpenter; this ship was lost a short time before capt. West failed, on Glover's Reef, about 15 leagues to the N. E. of the Bay of Honduras, on her passage from London to that place.

FROM AN ENGLISH PAPER.

A Letter from a successful Adventurer in a lottery.

SIR,

You will not be at all surprised when I tell you that I have very ill luck in the lottery; but you will stare when I further tell you, it is because unluckily I have got a considerable prize in it. I received the glad tidings of misfortune last Saturday night from your Chronicle, when, on looking over the list of prizes, as I was got behind my pipe at the club, I found that my ticket was come up a 2000l. In the pride as well as joy of my heart, I could not help proclaiming to the company my good luck, as I then foolishly thought it, and the company thought it too, by insisting that I should treat them that evening. Friends are never so merry, or stay longer, than when they have nothing to pay; they never care how extravagant they are on such an occasion. Bottle after bottle was therefore called for, and that too of claret, tho' not one of us, I believe, but had rather have had port. In short, I reeled home as well as I could about four in the morning; when thinking to pacify my wife, who began to rate me, (as usual) for staying out so long, I told her the occasion of it; but instead of rejoicing as I thought she would, she cried, "Pish, only two thousand pounds!" However, she was at last reconciled to it, taking pareto remind me, that she had chosen the ticket herself, and she was all along free it would come up a prize, because the number was an odd one. We neither of us got a wink of sleep, though I was heartily inclined for it; for my wife kept me awake, by telling me, of this, that, and t'other thing, which she wanted, and which she would now purchase, as we could afford it.

I know not how the news of my success spread so soon among my other acquaintance, except that my wife told it to every one she knew, or not knew, at church. The consequence was, that I had no less than seven very hearty friends come to dine with us, by way of wishing ns joy; and the number of those hearty friends was increased to above a dozen by supper time. It is kind in one's friends to be willing to partake of one's success; they made themselves merry at my expense; and at parting, told me they would bring me some more friends and have another jolly evening with me on this happy occasion.

When they were gone, I made shift to get a little rest, though I was often disturbed by my wife talking in her sleep. Her head it seems, literally ran upon wheels; that is, the lottery wheels; she frequently called out that she had got the ten thousand pounds; she muttered several wild and in-

coherent expressions about gowns and ruffles, and ear-rings, and necklaces; and I once heard her mention the word *coach*. In the morning when I got up, how was I surprised to find my good fortune published to the world in the newspaper! though I could not but smile (and madam was greatly pleased) at the printers exalting me to the dignity of *Esquire*, having been nothing but plain Mr. all my life before.

And now the misfortunes arising from my good fortune began to pour in thick upon me. In consequence of the information given in the newspaper, we were no sooner far down to breakfast than we were complimented with a rat-tat-too from the drums, as if we had been just married; after there had been silenced by the usual method, another band of music faluted us with a peal from the marrow bones and cleavers to the same tune. I was harassed the whole day with petitions from the hospital boys that drew the ticket, the commissioner's clerks that wrote down the ticket, and the clerks of the office where I bought the ticket, all of them praying, "That my Honor would consider them." I should be glad you would inform me what these people would have given me if I had had a blank.

My acquaintance in general called to know, when they should wait upon me to wait my good fortune. My own relations, and my wife's relations, came in such shoals to congratulate me, that I hardly knew the faces of many of them. One insisted on my giving a piece of plate to his wife; another recommended me to put his little boy (my two and fortieth cousin) out apprentice; another, who lately *white-washed*, proposed to me my setting him up again in his business; and several of them very kindly told me they would borrow three or four hundred pounds of me, as they knew I could now spare it.

My wife, in the mean time, you may be sure, was not idle in contriving how to dispose of this new acquisition. She found out, in the first place, (according to the complaint of most women) that she had not a gown to her back, at least not one fit for her now to appear in.

Her wardrobe of linen was no less deficient; and she discovered several chafms in our furniture, especially in the articles of plate and china. She is also determined to see a little *plaisure*, as she calls it, and has actually made a party to go to the opera. Now, in order to supply these immediate wants and necessities, she has prevailed with me (though at a great loss) to turn the prize into ready money; which I dared not refuse her, because the number was her own choosing; and she has further persuaded me (as we have had such good luck) to lay out a great part of the produce in purchasing more tickets, all of her own choosing. To me it is indifferent which way the money goes; for, upon my making out the balance, I already find I shall be a

STAGES.

THE public are requested to take notice, that
the partnership which has for some time sub-
sisted between Mathias Slough of Lancaster, and
William Geer, is now dissolved: but, not as M.
Slough insinuates to the public without just cause;
as will more fully appear by a letter on the sub-
ject from M. Slough to W. Geer, dated the 29th
December last, a recital of which is not now deemed
necessary. Any gentleman who wishes to be more
circumstantially informed of the merits of
this business, by applying to W. Geer may have
the perusal of M. Slough's letter, and then can be
at full liberty to determine whether or not W.
Geer is not perfectly justifiable in attaching him-
self to any other person in the prosecution of the
Stage conveyances from Philadelphia to Shippens-
burg, or any other place.

Now from the liberal and generous support the
public were pleased to confer on the first effort in
this business, William Geer, in conjunction with
Messrs. Reilly, Weed and Witmer, is determined
to prosecute and carry it on, with every care, at-
tention and dispatch that a zeal to oblige the pub-
lic can possibly exert.

The above company, who are amply provided
with carriages, horses, and every appurtenance to
render the passage safe and commodious, inform
those who wish to patronise and encourage the
undertaking, that they can take their seats at
George Weed's, the sign of the White Horse,
Market Street, Philadelphia, on every Monday
and Friday, to proceed to Lancaster, Harrisburgh,
Carlisle and Shippensburg. The fare as hitherto
established.

For the further accommodation of the public,
a Stage will start every Wednesday from the house
of Samuel Elder, in Harrisburgh, arrive at Sun-
bury in Northumberland county, every Thursday,
and return from thence and arrive at Harrisburgh
every Saturday, so that passengers destined for
Lancaster or Philadelphia, may proceed on Mon-
days.
Lancaster, Jan. 27, 1797.
N. B. This Line of Stages starts from the
house of William Ferroc, in Lancaster, on every
Tuesday and Saturday morning at 6 o'clock, pro-
ceeding to the westward; and from the house of
Mr. Samuel Elder in Harrisburgh every Wednes-
day morning, on the same evening arrives at Pa-
trick Cochran's in Shippensburg, and returns
from thence on every Thursday: performing the
same routine daily as in its tour from Philadel-

WRITTEN BY HIMSELF.
This publication presents a concise statement
of the base means practised by the Jacobins of the
United States to pervert the characters of those
persons who are considered as hostile to their disor-
ganizing schemes. It also contains the corre-
spondence between Mr. Hamilton and Messrs.
Monroe, Muhlenburgh and Venable, on the sub-
ject of the documents aforesaid, and a series of let-
ters from James Reynolds and his wife to Mr. Ham-
ilton, proving beyond the possibility of a doubt,
that the connection between him and Reynolds,
was the result of a daring conspiracy on the part
of the latter and his associates to extort money.

Higgins' Specific

FOR THE
PREVENTION AND CURE OF THE
YELLOW FEVER.

EVER since this disease made such ravages in this
city and New-York, the author has turned his
attention to its causes and cure.—The result of his
enquiries has convinced him that the reason why so
few persons recover from its attacks, are from its
not being well understood, and the consequent
wrong method taken to cure it. He is persuaded
that the excessive bleedings and mercurial treatment
of the Faculty is highly injurious, and that the on-
ly rational mode of treatment is by the use of proper
acids. Convinced of this he offers his Specific as a
certain remedy, if used according to the directions.
To be had in bottles, at one dollar each, of the
inventor Geo. Higgins, Cherry Street, two doors a-
bove Ninth street, (late manager of Jackson and
Co's Medicine Warehouse, London); by J. Le-
blanc, No. 216; W. Griffith, No. 177, T. Parry, No.
21, South Third street, T. Stiff, No. 55, New street,
near Vine street, and J. Gale, No. 36, Race street.
